Notion

What is Notion?

Sarah:

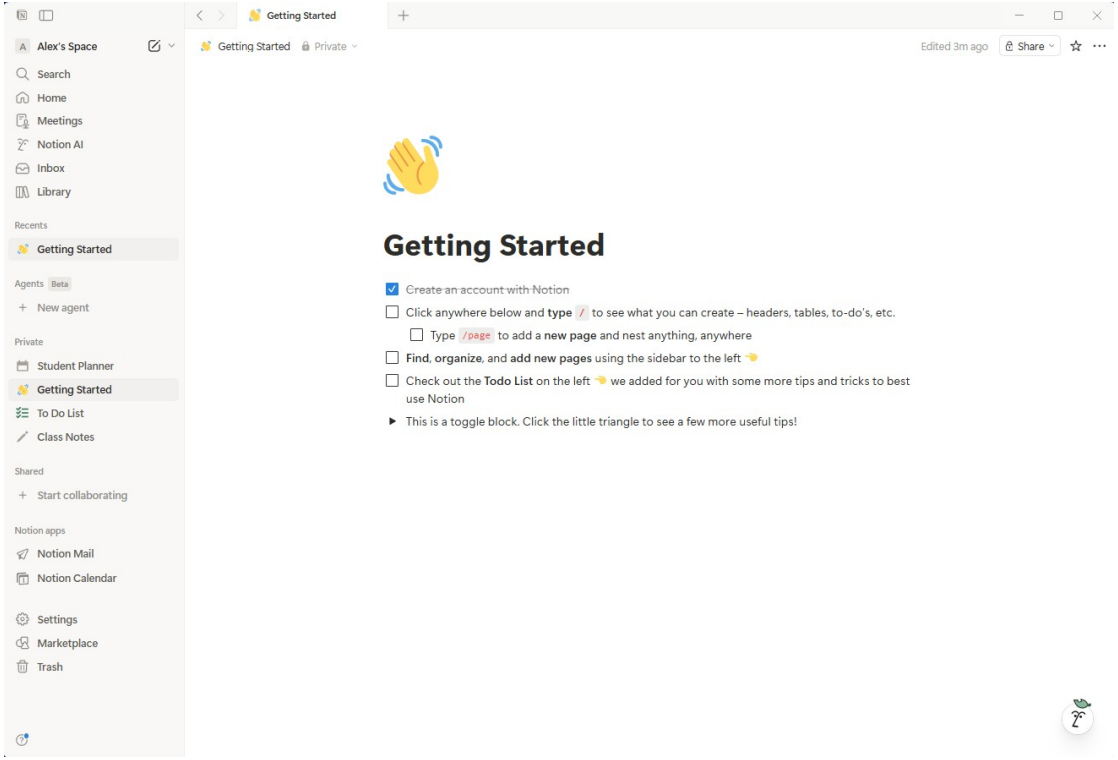
Hello my name is Sarah, and I will be explaining what Notion is.

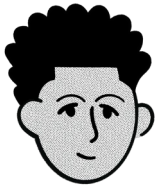
At the core Notion is a productivity software.

Sarah:

Some of the features that are contained in Notion include:

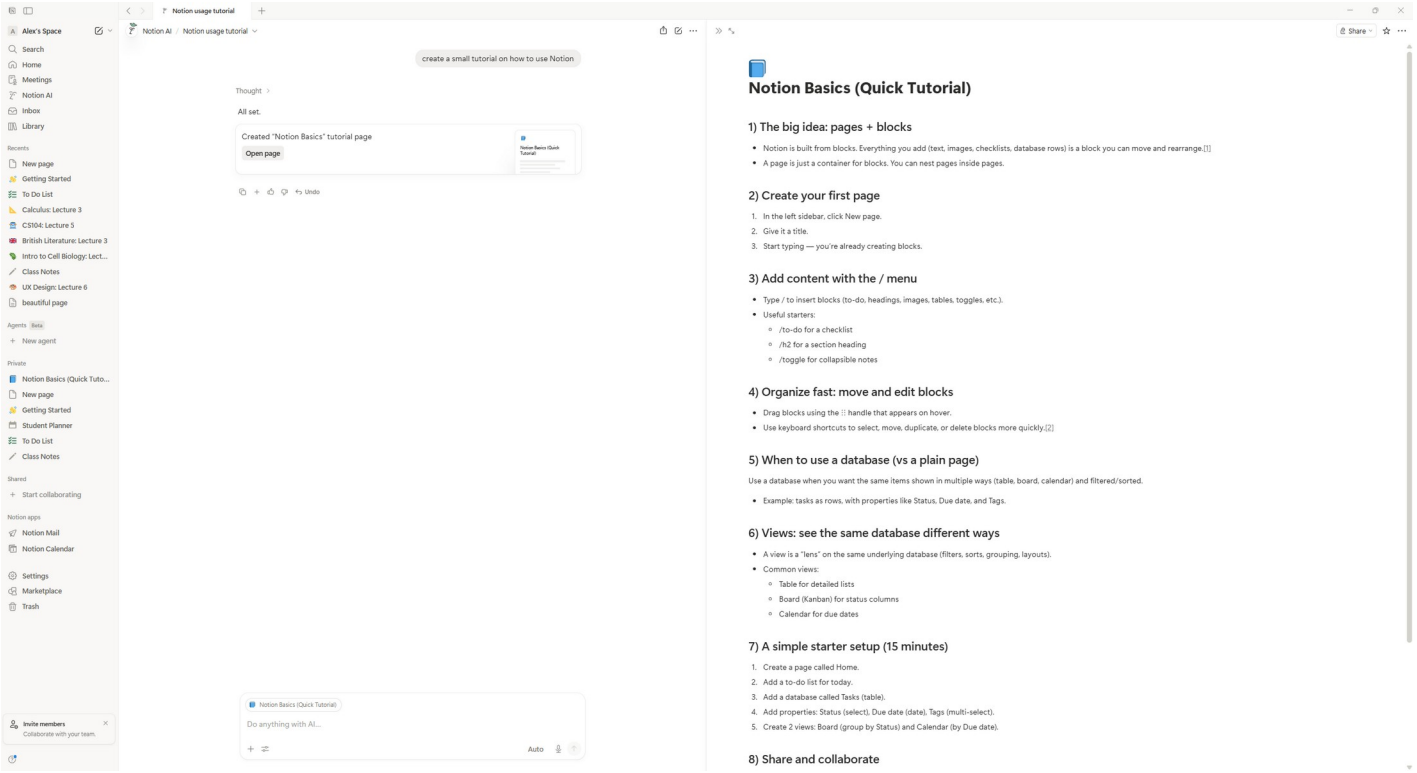
- All-in-one Workplace
- Block-based Editing System
- Powerful Databases
- Collaboration Tools
- Templates & Customization
- Integration

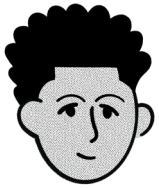




David:
This is the first page you'll see when completing the registration process and launching Notion.

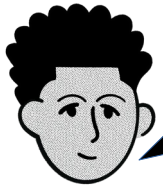
Mini Notion Tutorial - Alex Marques





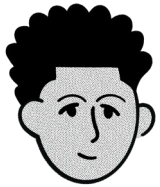
David:
Notion AI can even assist you on learning how to use the Notion app as well.

Interactive Round



David:
What did you need to type to create a page?

Sarah:
What is one of the charts or graphs that you can create in notion?



David:
What was the name of a program or software that is compatible with Notion?
